

SAINT ALBANS SCHOOL

AN INDEPENDENT SCHOOL IN THE ANGLICAN TRADITION

1 February 2018

Dear Parents:

Please find enclosed Saint Albans School enrollment package for the 2018-2019 academic year. These are exciting times at Saint Albans and we hope that you and your child will join us in the new school year.

As you know, the past few years have been a period of growth at the school. Our elementary and middle school enrollment has expanded each year which has required the re-configuration of facilities, staff, and program. We believe the school is well positioned to continue to provide a first-rate, rigorous education within the context of a caring and nurturing community.

We are thrilled about the great success and positive reception of this past year's new initiatives and curriculum additions. These include the creation of our technology and science lab, the "Arts Hour", as well as our afterschool programmes. In keeping with Saint Abans' focus as a school with a mission, our students have engaged in a series of outreach programs designed to promote volunteerism and service.

There is a lot going on at Saint Albans. And, it is very, very good. More importantly, we are looking forward to building on our success as we continue to grow in the future. As our enrollment expands, we are making some changes to the curriculum and class configuration. For the 2018-2019 academic year, we expect to return to the normal pattern of classes. We expect to have separate classes in Kindergarten through Grade six, with the PreK structure remaining the same. We hope as well to expand our technology and science offerings, offer more art classes, and begin work toward an instrumental music programme.

We look forward to your family continuing to play a vital role in this new year. As a result, we enclose the re-enrollment materials for the coming year. We are pleased to note that there is no tuition increase for the coming year, although there is a modest increase in the materials and supplies fee. This is designed to allow for the acquisition of more equipment for the science/technology room.

Please review the documents and return the re-enrollment contract prior to March 1, 2018. Should you have any questions concerning re-enrollment, please do not hesitate to contact me.

Very truly yours,

M.P. Harrington
Headmaster
